RRR Task 03 EMPATHY

The R³ tasks continue this week. Task 3 - This LinkedIn Learning short course on Empathy in Design
will inform your work on Project 3 - which will launch in wk11.
Aim for completion of this task by: Sunday 08/12/24 - as usual this is a soft deadline, suggested by us to encourage you to do the tasks as you receive them.

This is a very useful LinkedIn short course (1hr 10mins). Break up your viewing into shorter chunks of time, but try to watch as much as possible. Empathy in UX Design by Cory Lebson. You will need to login with your UoS credentials to access LinkedIn Learning. The above link should take you to a login page. If for any reason it doesn't, you can access LinkedIn Learning via this link www.southampton.ac.uk/linkedinlearning/index.page and scrolling down to the giant orange and white start button on the screen. Also, take the opportunity to check out the hundreds of other instructional videos relevant to your course, and provided free by the University to all students.

Task

Using either Sketch noting or Mind mapping, make hand-drawn visual notes as you watch and identify
the key takeaway messages and actions. Keep your notes to a single A4 page.

Scan your notes and post the image (tidied up, if necessary) on your blog site.
