

## 01 INFORMING YOUR PRACTICE

The R<sup>3</sup> tasks begin this week. Your responses to each task should be saved as a .pdf and subsequently uploaded to your portfolio website. Unify the tasks by using a common graphical system to record your responses. The complete set of tasks (in .pdf format) should be available to read via a page-link in the main menu of your website. Use thumbnails as links to open each of your .pdf responses.

Aim for completion of this task by: **Sunday 24/11/24**

Watch the two short films listed below. Reflect and comment on what you have seen. Identify five main takeaways (at least two from each film) that will inform your personal design practice.

Write this up, limiting the length to 250 words for each of the films. Be visual - use appropriate images to illustrate your response to the task.
