

D - Describe

Describe the event or experience

what project was done, the background of the project, where and when, what you learned in this project.

I - Interpret

Analyze the events that occurred and try to understand the reasons, influences, or motivations behind them.

E - Evaluate

Evaluate the effect and meaning.

Evaluate first semester project and assignments to determine their effects on yourself personally, the effects regarding good and bad, and how these effects will impact your growth later in life.

P - Plan

Action Plan for the future.

After completing the first three steps, the final step is to develop an action plan for the second study. You are asked to plan future actions or improvements based on the conclusions drawn from your reflection.

DIEP.
