

PEOPLE WATCHING

In Palmerston Park

36029947

Xinjie Zhao

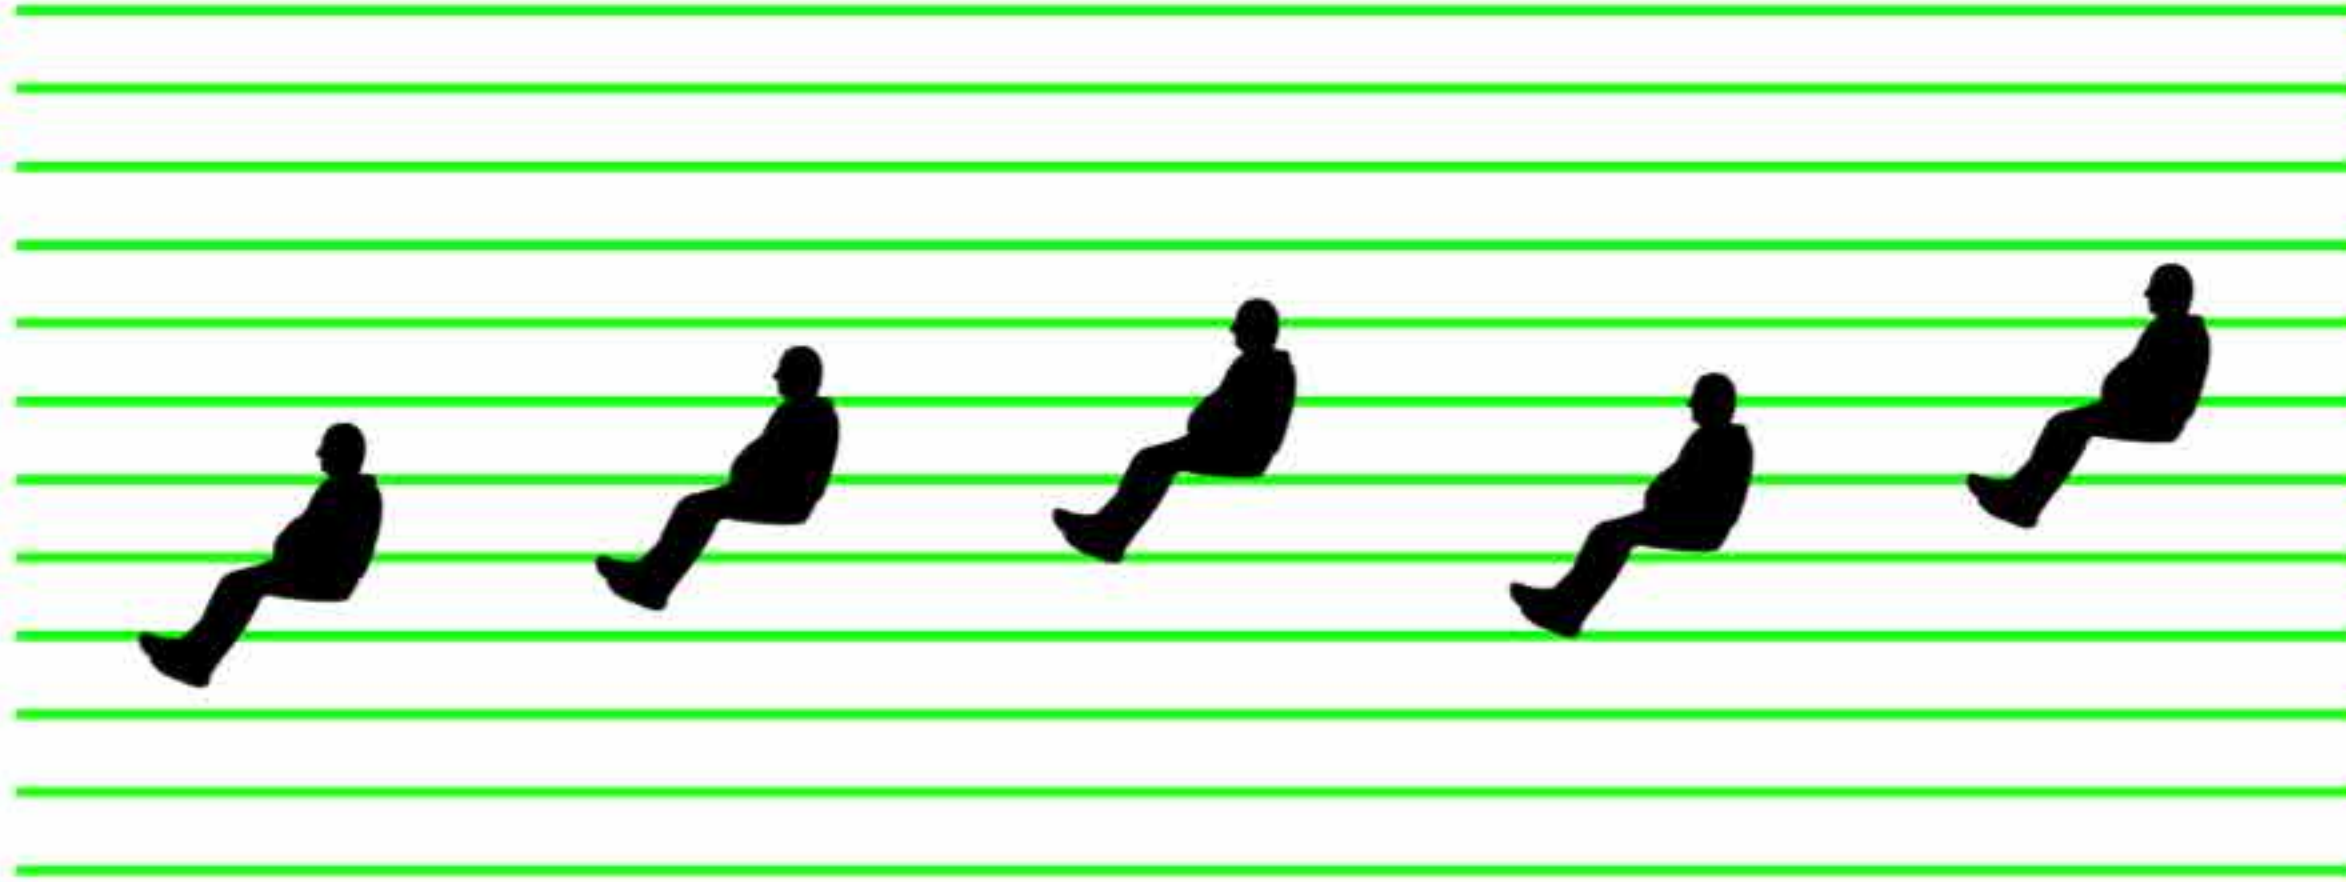

DOG- WALKING

Everyone is different when it comes to dog walking. The only thing in common is that when the dogs are having fun and greeting other people in the park, the owners are also friendly

REST CITIZEN

Through my observation

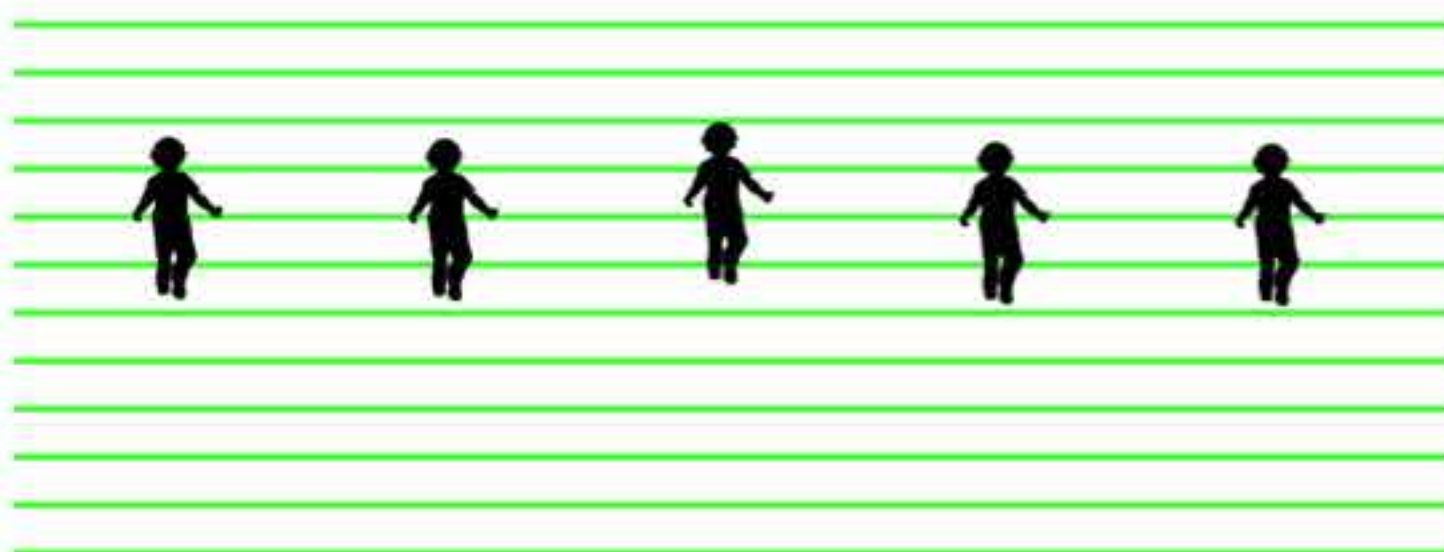

most of the rest of the citizens do not have great mood swings, and some of them will enjoy their lunch during the rest, because there will be a lot of food shops across the road

STUDENT

CHINDREN

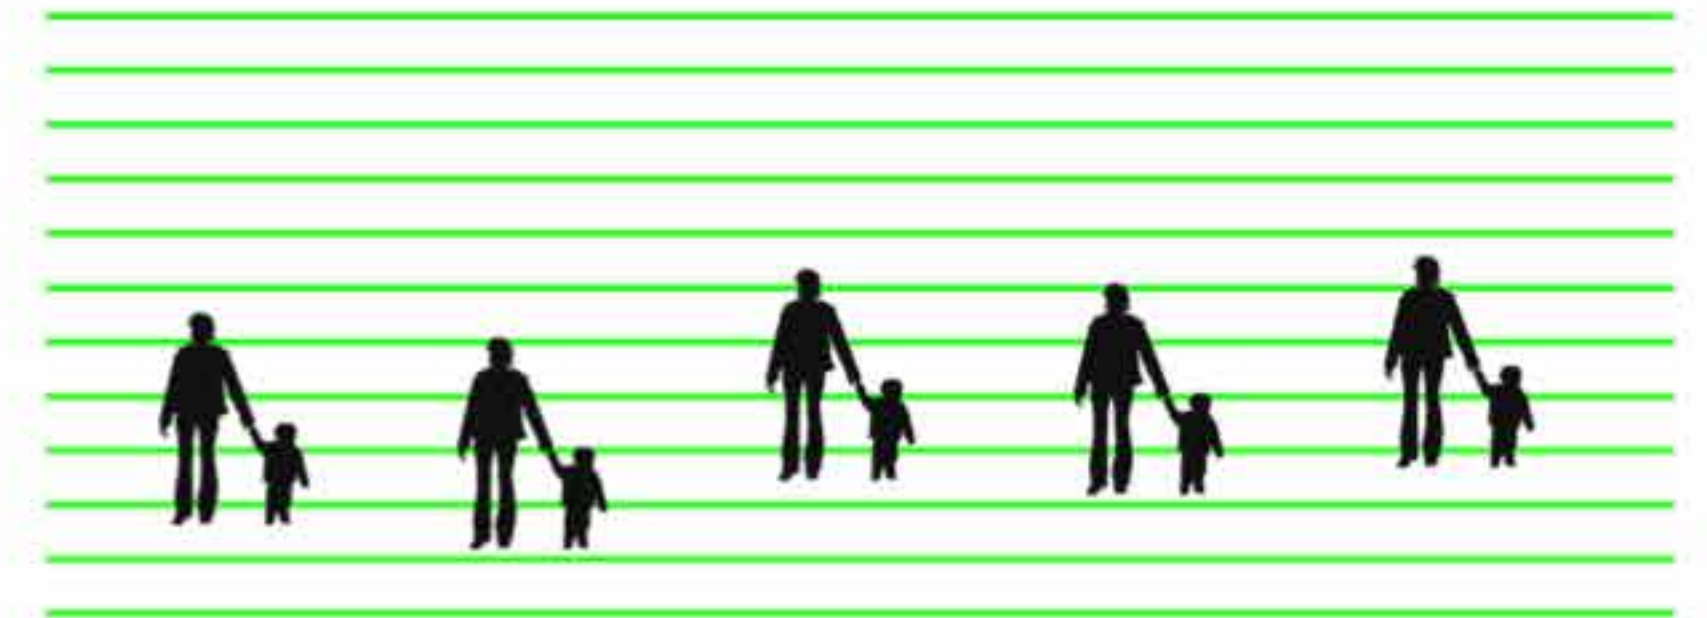

Every child seemed happy, especially the children in the children's activity area, and they were all enjoying the fun of interacting with their peers

CHINLD- BEARING

Most of the parents watching their children here will show a bored expression, the main reason is

1. They don't fit in with your child's playground
2. Child disobedience
3. Adults are on the phone taking care of their business
4. The children's area has safety measures such as guardrail, and there is no need to worry about them getting hurt

PARK MAP

Monday 14:00-16:00 pedestrian flow

Weather: sunny

reflection

1. I can choose different weather to observe
- 2.I can actually look at what everybody's doing
- 3.It can be divided into working days and rest days and different time periods to observe
